

Sea Pro[®] 6 & Sea Pro 7 Retro Fit Kits Now Available

KITS NOW
AVAILABLE
TO ORDER!

In response to the recent American Bureau of Shipping (ABS) rule change to International Marine Organization (IMO) Resolution A753(18), Cummins Filtration has released retro fit kits for the Sea Pro 6 and Sea Pro 7. To be compliant with the new fire requirement, the retro fit kit must be installed on current Sea Pro 6 and Sea Pro 7* units:

Sea Pro 6 (3979819 S)

- Seal, Bottom Plate (3970958 S)
- Sea Pro 5 Bottom Plate (3970959 S)
- 1/4"-20 x 3/4" Cap Screw (6)
3946704 S
- 3/8" NPFT Plug
- Sea Pro 5 Single, label
- Sea Pro 5 Dual/Duplex, label
- Sea Pro 5 Triple/Triplex, label

Sea Pro 7 (3979820 S)*

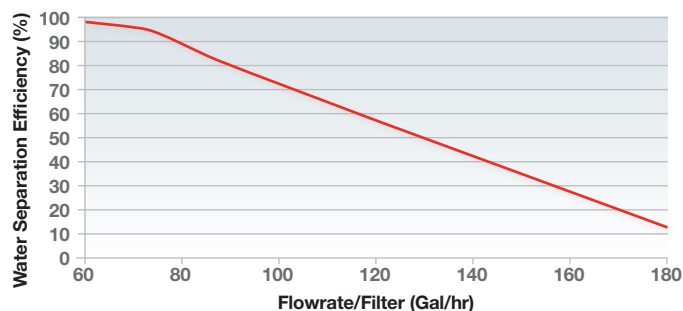

- Seal, Bottom Plate
- Stud Adapter
- Sea Pro 5 Bottom Plate
- 1/4"-20 x 3/4" Cap Screw (6) 3946704 S
- 3/8" NPFT Plug
- Sea Pro 5 Single, label
- Sea Pro 5 Dual/Duplex, label
- Sea Pro 5 Triple/Triplex, label

* **Note: For Sea Pro 7 purchase corresponding filters separately:**

For Sea Pro 7 Element	Order Corresponding Sea Pro 5 Filter	Description
FS19763	FS19841	StrataPore 7 micron Spin-On Filter
FS19764	FS1013	StrataPore 10 micron Spin-On Filter
FS19765	FS19804	StrataPore 25 micron Spin-On Filter

If your unit has a plastic WIF sensor you will need to replace it with our stainless steel WIF (Part 396082600).

Product Water Removal Performance

Emulsified water removal varies based on flow rate and fuel quality.
