for Your 2010 Emissions Compliant
Cummins Engines

2010: The Right Filtration Matters

Genuine Cummins Filters for Your Cummins Engine

Tighter tolerances in high pressure fuel systems, demands for reduced operating costs and more stringent emissions regulations have created dramatic changes regarding engine fluid filtration and conditioning for the EPA 2010 certified engines.

Cummins is the only engine manufacturer that develops and manufactures in-house filtration and conditioning products providing the most dependable and integrated solutions for 2010.

Designed as an integral part of the Cummins system, Cummins Filtration products include unique features, such as StrataPore™ media for increased fuel contaminant and water-removal efficiency; Stacked Disc bypass oil filter media with high affinity for capturing and holding sludge; Venturi™ oil filters for optimized and balanced performance via efficiency, real world life and high oil flow during cold engine starts and high efficiency crankcase ventilation oil separation systems.

You can depend on Cummins Filtration products for your 2010 Cummins engine to provide:

- OEM-approved engine protection
- Prolonged engine life
- Compatibility with extended maintenance intervals
- Increased engine up-time, decreased down-time
- Optimum fuel economy
- Reduced maintenance costs

ISB6.7 Filtration Package

Lube Filter

LF3970

Cummins 3937736

- High efficiency StrataPore media
- Proven technology

RAM TRUCK: LF3972

Cummins 3949561

- Proven protection

Crankcase Ventilation Filter

CV52001

Cummins 4936636

- High efficiency crankcase aerosol filtration
- Reduces oil consumption and environmental waste

RAM TRUCK: CV52001

Fuel Filter

PRIMARY

FS1065*

Cummins 4934879

- StrataPore multilayer media
- Superior water separation

RAM TRUCK:

FS43255*

- Filter-in-Filter
- Industry leading fuel-water separation
- Superior particle removal
- Alternative fuel compatible

SECONDARY

FF5632*

Cummins 4934845

- StrataPore multilayer media
- High efficiency
- Alternative fuel compatible

ISC8.3 Filtration Package

Lube Filter

LF9009

Cummins 3401544

- Patented Venturi™ Combo technology for optimal flow
- High efficiency StrataPore™ media
- Best sludge removal

Fuel Filter

PRIMARY

FS1065*

Cummins 4934879

- StrataPore multilayer media
- Superior water separation

SECONDARY

FF5636*

Cummins 4940647

- StrataPore multilayer media
- High efficiency filtration
- Alternative fuel compatible

Water Filter

WF2071**

Cummins 3100304

- Filters debris in coolant that causes engine wear
- Extends water pump and thermostat life
- Contains 4 units of DCA4 additive

Crankcase Ventilation Filter

CV50628

Cummins 5263190

- High efficiency crankcase aerosol filtration
- Reduces oil consumption and environmental waste
- Longer filter life

ISL9 Filtration Package

Lube Filter

LF9009

Cummins 3401544

- Patented Venturi Combo technology for optimal flow
- High efficiency StrataPore media
- Best sludge removal

Fuel Filter

PRIMARY

FS1065*

Cummins 4934879

- StrataPore multilayer media
- Superior water separation

SECONDARY

FF5636*

Cummins 4940647

- StrataPore multilayer media
- High efficiency filtration
- Alternative fuel compatible

Water Filter

WF2071**

Cummins 3100304

- Filters debris in coolant that causes engine wear
- Extends water pump and thermostat life
- Contains 4 units of DCA4 additive

Crankcase Ventilation Filter

CV50628

Cummins 5263190

- High efficiency crankcase aerosol filtration
- Reduces oil consumption and environmental waste
- Longer filter life

ISX11.9 Filtration Package

Lube Filter

LF9080

Cummins 2882674

- Patented Venturi Combo technology for optimal flow
- High efficiency StrataPore media optimized for best sludge removal and service life

Fuel Filter

PRIMARY

Fuel Processor

(Fuel Pro with FS19764)

- Provides new Cummins-required level of particle protection
- Alternative fuel compatible with FS19764 G*

SECONDARY

FF5776*

Cummins 2864993

- StrataPore multilayer media
- High efficiency filtration
- Alternative fuel compatible

Water Filter

WF2126**

Cummins 4907485

- Extended service StrataPore media filters debris in coolant that causes engine wear
- Extends water pump and thermostat life
- Contains slow release DCA4 tablets

Crankcase Ventilation Filter

CV50626

Cummins 2869874

- High efficiency crankcase aerosol filtration
- Reduces oil consumption and environmental waste

* ULSD and B20 Compatible

** Actual water filter part number varies by preferred chemistry, coolant system size and service interval.

ISX15 Filtration Package

Lube Filter

LF9080

Cummins 2882674

- Patented Venturi™ Combo technology for optimal flow
- High efficiency StrataPore™ media optimized for best sludge removal and service life

Water Filter

WF2126**

Cummins 4907485

- Extended service StrataPore media filters debris in coolant that causes engine wear
- Extends water pump and thermostat life
- Contains slow release DCA4 tablets

Fuel Filter

PRIMARY

Fuel Processor

(Fuel Pro with FS19764)

- Provides new Cummins-required level of particle protection
- Alternative fuel compatible with FS19764 G*

SECONDARY

FF5686*

Cummins 3685306

- StrataPore multilayer media
- Alternative fuel compatible

Crankcase Ventilation Filter

CV50617

Cummins 3685528

- High efficiency crankcase aerosol filtration
- Reduces oil consumption and environmental waste

* ULSD and B20 Compatible

** Actual water filter part number varies by preferred chemistry, coolant system size and service interval.

Fleetguard® Coolant and Chemical Products

Cummins Filtration also provides Diesel Exhaust Fluid (DEF) which is essential for your 2010 SCR-equipped engine. DEF is easy to use, easy to store and comes in a wide variety of convenient packaging options.

In addition to DEF, Cummins Filtration provides a wide range of coolants and fuel additives that are designed specifically for the challenges of today's modern fuel and cooling systems:

Coolant Products

- ES Compleat™
- Fleetcool™
- HD Coolant
- Coolant Additives
- Cooling System Cleaners
- Coolant Testing
- Cooling Filtration

Fuel Additives

- Platinum Plus®
- Turbo Diesel
- Winter Conditioner
- Microbicide
- Lubricity Dosing Systems
- Asphaltene Conditioner
- Fuel Testing

To learn more about any of these coolant and chemical products, visit cumminsfiltration.com.

For more detailed technical information about products featured in this brochure, please refer to the **Fleetguard Technical Information Catalog (LT32599)**. Some part numbers may not be available in all countries. Contact your local Customer Assistance Center for product availability.
