

Injector Protector.

Nanotechnology-based media delivers 13 times better protection than conventional fuel filters,* reducing wear and protecting you from thousands of dollars in costs to replace a set of injectors in your well servicing equipment.

Advanced Fuel Filters Deliver

13X

Greater Protection

Guarding Your Bottom Line.

From fuel, air and lube filters to extended-life coolant/antifreeze and quality Diesel Exhaust Fluid (DEF), Fleetguard is a recognized expert, with innovative products that are proven to prolong engine life, increase productivity with reduced downtime and lower your total cost of operation. Nothing guards your bottom line like Fleetguard.

Fleetguard products are available at over 33,000 retail locations worldwide. For the location nearest you, see cumminsfiltration.com. In North America, customers who want more information can call 1-800-22FILTER (1-800-223-4583).

Nothing Guards Like Fleetguard®

Filtration, Chemical And Lubricant Solutions For The Oil And Gas Market.

Small Change. Big Savings.

Fleetguard® Direct Flow™ air filters take up 50% less space than conventional air filters* while extending service intervals by as much as three times. Three fewer filter changes per year saves hundreds of dollars in parts and labor costs alone.

Air Filters That Require

50%

Less Space

Contamination Domination.

Innovative Fleetguard lube products capture up to three times more contaminants than full-synthetic filters,* including metal shreds, rust and dust. They're inexpensive life insurance for your engines, eliminating costly overhauls – which in a genset could cost as much as \$200,000.

Eliminating Up To

3X

More Contaminants
In Lube Systems

Spending Less. Accomplishing More.

On well servicing equipment, the cost of repair is directly proportional to the distance of the work site from the service location and can involve expensive travel crane service for hauling equipment. The Fleetguard complete lineup of innovative products delivers higher productivity with reduced downtime, lower fuel consumption and extended engine life. It all adds up to a 42% savings in total-life cost* for the equipment used in oil and gas exploration, refining and transmission.

Total Cost Of Operation

42%

Lower

when using a complete Fleetguard filtration system package, on average.
