

Cummins Filtration Online Training Program - Fleetschool™

As filtration technology constantly changes to keep pace with new engine technology, Fleetschool is your most dependable resource for updated product and market information related to the Fleetguard brand.

Our program features easy-to-use, self-guided training modules that cover a wide variety of modern filtration technology and product topics. With short tutorials, self-assessments and online course monitoring, Fleetschool is an excellent tool for individuals to become certified Fleetguard users from the convenience of their unique location. By completing our training program, you will be a knowledgeable expert in the eyes of your customers.

Fleetschool training is currently available in nine languages (English, French, German, Italian, Mandarin, Portuguese, Russian, Swedish and Spanish). Current courses on Fleetschool include:

Level One & Level 2 Certification of Core Products

- Basics of Filtration
- Air Filtration
- Cooling System
- Fuel Filtration
- Hydraulic Filtration
- Lube Filtration
- Crankcase Ventilation (CV) Filtration
- Engine Basics

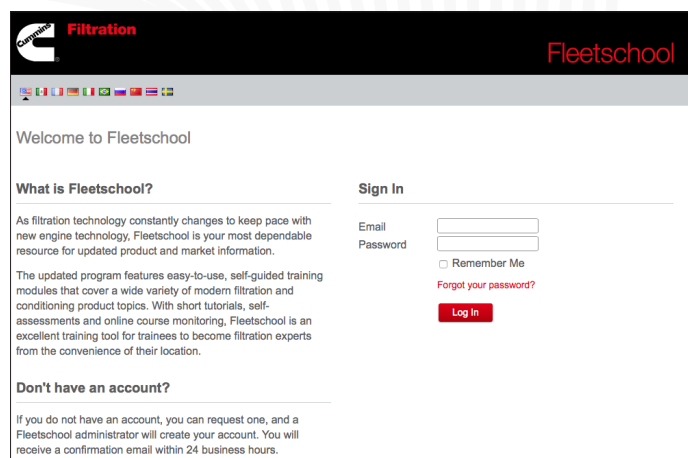

Level Two Certification of Tools & Other Products

- Direct Flow Air Filtration
- Fuel System Challenges & NanoNet Filtration Solutions
- NanoForce Advanced Air Filtration
- Understanding Filter Efficiency and Beta Ratio

This technical training and certification provides multiple advantages:

- Easy online completion accessed from any location
- Knowledge of the latest maintenance information
- Troubleshooting tips to protect an integrated engine system
- Partnership with customers to help reduce downtime and minimize operator hassles
- Increase your product knowledge
- Email updates on new courses as created

To access the training please visit www.fleetschool.com and self-register today!
