

Fuel Filter for Renault and Volvo Heavy Duty Engines

Cummins Filtration offers extensive coverage on the latest Volvo and Renault heavy duty engines for truck and bus applications with the FF254 fuel filter as the latest addition. As an industry leader in filtration products for On-Highway applications, Fleetguard® products are manufactured to ensure optimal equipment performance to provide proven protection that meet or exceed OE specifications.

Below is an updated application guide that includes the FF254:

Equipment	Make	Engine	OEM Part Number	CF Part Number
BUS	B9R	D9A	477556	LF3654
			478736	LF3675
			20514654	FS19735
			20972293	FF254
			20746873	AF55711
TRUCK	FH16	D16E	20411815	AF26163M
			20411815	AF26472M
