

Fleetguard®

Designed To Deliver !

Fleetguard offers a comprehensive range of products for Light Commercial Vehicles up to 7.5 tons

Fleetguard Quality for a Changing World

The distribution of goods is changing. As heavy-duty trucks are refused in major cities, light commercial vehicles play an increasingly important role in distributing goods to the end customer. As a consequence, the population of light commercial vehicles up to 7.5 tons has increased significantly and servicing these vehicles is a growing business opportunity.

Fleetguard offers a 'One Stop Shop' of quality filters to support your growth

into the exciting market of urban distribution. Please find some key applications below for which we offer Fleetguard quality at a very competitive price.

Are you looking for applications not listed?

Speak to your Area Sales Manager to learn more about our product lines.

We are here to support you as you enter this promising market segment and gain profitable business.
