

The Fleetguard LF14002NN

Trusted OEM Filtration for Cummins® L9 Engines

Money-Saving Technology

The unique design of the Fleetguard LF14002NN delivers powerful benefits that positively impact your bottom line:

- **Greater Fuel Efficiency**
- **Increased Engine Protection**
- **Increased Vehicle Uptime**
- **Extended service up to 1,500 hours**

See Cummins Extended Service Guidelines

How it works

Our filter technology features 2-in-1 media to optimize performance in real-world conditions, which puts less strain on the engine and enables the most fuel savings by any lube filter on the market.

1) StrataPore® Media
Removes larger particles upon engine start-up for immediate protection.

2) NanoNet® Media
Removes smaller, fine particles to prevent long-term engine wear.

Built by the Best Name

The LF14002NN is designed by engineers at Fleetguard. We know what it takes to maximize your investment in your equipment. In fact, it's the only filter engineered and validated by Cummins to meet their stringent engine test requirements.

Backed by the Best Warranty

Unlike our competitors who offer pro-rated coverage, our full warranty protection extends from the point of purchase throughout the recommended service life of the product.
