

## Filter Service Kits

### divtop

[1]

Servicing your equipment has never been easier thanks to Fleetguard filter service kits. Filters are packaged together for easy access and identification and contain the necessary filters for servicing in one convenient box.

Fleetguard filter service kits are available for a variety of diesel engine equipment ranging from heavy duty diesel engines to 4WDs. For many equipment applications, customers can choose to buy a complete kit, containing air, fuel and lube filters, or a wet filter kit, containing fuel and lube filters.

Popular Fleetguard filter service kits include:

- Cummins ISX, Signature, ISM, ISB, and more
- CAT C15, C13, C12, and more
- Detroit Series 50 & 60, DD13, DD15, DD16, and more
- Nissan Navara & Patrol
- Toyota Hilux, Landcruiser and Prado
- Holden Colorado, Jackaroo & Rodeo
- Isuzu D-Max
- Mazda BT50
- Mitsubishi Triton & Challenger
- Ford Ranger

Refer to the literature below for a list of kits available. If you require a kit that is not listed we can make it for you. Contact your local [Fleetguard Business Manager](#) [2] to **discuss your requirements**.
