

Fleetguard®

Fleetguard CS41018 with SpiraTec™ Drop-In Lube Centrifuge

A SMARTER SOLUTION FOR CUMMINS ENGINES

High Performance, Low Hassle

Cummins Filtration introduces a replacement drop-in disposable rotor solution for centrifuges in Eliminators™ and remote centrifuge units used in High Horsepower applications.

The new **CS41018** replaces 84 pieces with a single, disposable assembly. This new disposable rotor using our patented SpiraTec technology offers easier maintenance and considerable cost savings without any compromise in filtration performance.

Benefits of the Fleetguard CS41018 Lube Centrifuge

- Meets OEM specifications, meaning premium protection and optimal performance for your engine
- Minimum service life of **1,000** hours
- Designed to allow for quick filter changes without any special tools. Reduces service time from 1.5-2 hours to approximately 15-20 minutes
- Less risk of injury during rotor service
- Quick and clean service improves total cost of ownership

Cummins Engine Application

Fleetguard CS41018

QST30, QSK38, QSK45, QSK50, QSK60, QSK95
(requires 2 units)

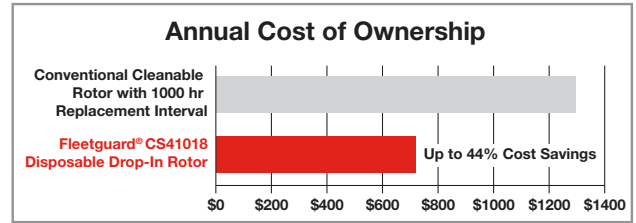

**CS41011 is a similar Fleetguard product that applies on Cummins QSK19 and QSK23 engines.*

Part Number Reference

Manufacturer	Part Number	
Fleetguard	389497500 S (Assembly) CS44000 (Service element)	CS41018 (assembly and service element)
Cummins	4331734	
Alfa Laval	1800-17767	

Designed to Save Time and Money

Servicing the OE product is not only messy, but it can take up to 2 hours to complete the required cleaning and re-install the unit. The Fleetguard CS41018 unit has been designed to greatly reduce the costs associated with labor and downtime—average installation takes as few as 20 minutes! Field trials resulted in a total annual cost savings of 44% versus the conventional OE product.

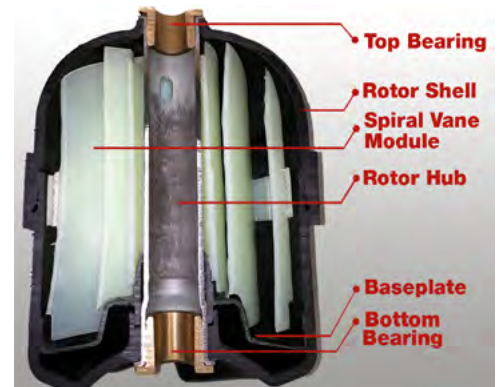

Conventional Unit

- Metal cone stack with 84 individual components
- High cost
- Difficult cleaning process required for reuse
- Safety concerns with handling metal cones

Fleetguard CS41018

- All-in-one component
- Low cost
- Single use and environmentally friendly disposable
- Much safer design with composite shell and no handling of sharp edges
- Removes soot and contaminant to help maintain oil quality

Best Warranty in the Business.

The Cummins Filtration Warranty extends to our entire line of products, ensuring the same promise of performance and coverage beyond the competition. Visit Fleetguard.com.au to learn more about the competitive benefits of the Cummins Filtration Warranty.
