Air Filtration Solutions
Australian Made for Australian Conditions
Cummins® Filtration has been manufacturing Fleetguard® heavy duty air filtration products in its Melbourne, Australia facility for over 20 years. When production started in 1990, 28 part numbers were made. Today, over 230 part numbers are manufactured and this is steadily increasing.

In addition to our local market, Cummins Filtration exports products to South East Asia, New Zealand, USA and Europe.

**Australia's Number 1 Choice**

Fleetguard air filters are synonymous with quality and reliability, not just in Australia but globally. Cummins Filtration has been operating in Australia for over 30 years; our wealth of local knowledge and expertise means we understand the demands of the harsh, Australian climate and develop filtration products to keep your engine running stronger, longer.

Fleetguard air filters are backed by the best warranty in the business. You can use our filters, safe in the knowledge that if a defect ever necessitates repair of your engine or components, the Cummins Filtration Warranty covers reimbursement of reasonable costs to repair or replace the damaged engine or components, and what’s more, it’s not pro-rated. That’s how confident we are that our air filters will meet or exceed your expectations.

The Air Filtration Experts

**Why Buy Fleetguard Australian-Made Air Filtration?**

Local manufacturing benefits you, your engine and our economy...

- **Experience counts**
  We’ve been manufacturing air filtration in Australia for over 20 years.

- **Fast delivery of finished product**
  We deliver, with minimal lead times.

- **Cost effective component sourcing**
  We source quality components at a competitive cost.

- **Component supply flexibility**
  Access to a variety of suppliers ensures continuity of supply.

- **Greater uptime for your equipment**
  Efficiency in production and delivery capabilities means less downtime for you.

- **Extensive part number inventory**
  Through our vast Australian distribution network you have access to the parts you need, when you need them.

**Process Quality & Certified Systems**

Our Melbourne manufacturing facility operates to world-class quality standards and is certified to ISO9001 Quality Management System, enabling us to demonstrate consistency and transparency with conformance to customer requirements. Business & operational processes are continually improved utilising the Cummins Operating System for functional excellence, including Six Sigma methodology.

And don't forget, all Fleetguard products are backed by the best warranty in the business.
