

Fleetguard[®]

Hydraulic Filtration for High-Horsepower CAT[®] Equipment

Uncompromising alternatives for lower total cost of ownership.

Aftermarket Filters That Meet or Exceed OEM Specifications

- Long service life
- Robust manufacture
- Meet or exceed OEM specifications
- Superior warranty

When your equipment is down due to unplanned maintenance, that's hard-earned revenue taken away from your bottom line. Fortunately, there are ways to protect against unplanned downtime with Fleetguard's range of filtration solutions.

Fleetguard hydraulic filters are designed to help keep your precision hydraulic-systems running as intended. Cummins Filtration offers Fleetguard hydraulic filtration solutions for a wide array of applications, including several newly released filters specifically for CAT[®].

These Fleetguard filters meet or exceed the equipment OEM specifications and are the first aftermarket replacements available on the market today, bringing your operation top quality performance and an all-around unbeatable total cost of ownership.

Built by the Best Name

Fleetguard products are designed by engineers at Cummins Filtration, the only filter company that's part of an engine company. We know what it takes to maximise your investment in your equipment. And the quality of our products is matched only by the quality of our sales, service and support. Our worldwide distribution network can find the right solution to meet your needs, quickly and efficiently.

Backed by the Best Warranty

Unlike our competitors who offer pro-rated coverage, our full warranty protection extends from the point of purchase throughout the recommended service life of the product.

Nothing Guards Like Fleetguard!

New Fleetguard Hydraulic Filters for CAT® Applications

Equal or improved
filtration performance

Lower total cost
of ownership

Cost savings over
the OEM solutions

CAT P/N	FG P/N	Primary CAT Applications	Description	FG Protection	FG Benefits
				β1000 (99.9%)
